Noise Ordinances?

Neighbors With "Sensitive" Hearing?

Your new Silent Sound System can ward off even the fussiest of neighbors! No more party ending knocks at the door from the police.

It's time to party without a curfew!

No More Screaming Over The Music!

Catch up with old friends, flirt to your heart's content, or just take a break. With Silent Sound System it's as easy as taking off your headphones.

Let Your Different Worlds Collide!

The world has changed, choice has never been more "In."

Our system gives listeners the power of choice, with our 3 channel transmitters, rap, country, and electronic music can all live in harmony!

# Event Ideas

## Get Creative!

- 1.** Silent Sound Systems aren't limited to Silent Discos! Here are some ideas for how to get the most out of your new system.
- 2.** Corporate Gatherings: Expecting a big crowd? Make sure everyone there can hear.
- 3.** Weddings: Set a color for the Bride's family and a color for the Groom's!
- 4.** Conventions: Nothing draws a crowd like a unique way of presenting your material.
- 5.** DJ Battles: Take your silent disco to the next level by having a competition! DJ with the most headphones tuned to her channel wins!
- 6.** Yoga/Fitness: Let your clients decide what music or work out program they want.
- 7.** Art Installations: Bring quality audio to your installation without noise concerns.
- 8.** Movie Screenings: The surround sound experience without the cost.
- 9.** Bilingual Events: Create a fusion of cultures!
- 10.** Silent Comedy: They can't laugh if they can't hear you, give the audience control over the volume.
- 11.** Educational Events: Engage your students and get them thinking about material in a new way.

# Setting Up the System

## Plug & Play: Transmitters

- 1.** Press this button to toggle between transmission channels.  
Channel 1: Blue  
Channel 2: Red  
Channel 3: Green
- 2.** Connect the power supply here. We recommend plugging into a surge protector to protect your equipment
- 3.** RCA Input.
- 4.** This switch both turns the transmitter on, as well as giving you the option to toggle transmission strength. It's highly recommended that for outside events and inside events taking place in multiple rooms that you use the high setting.

## Plug & Play: Headphones

- 1.** Location for the charging port.
- 2.** On/Off Switch. When turned on, the headphones will glow Red, Blue, or Green. The switch itself is a lime green color.
- 3.** Located here is the switch used to change channels. Like the On/Off Switch, this is lime green.
- 4.** Volume dial. The only dial on the right ear piece.
- 5.** The headphones are adjustable for the perfect fit.
