Introduction

Congratulations on your equipment from Silent Sound System™! Our systems offer a unique experience that can be appreciated by everyone.

Included in your package:

- Silent Sound System™ Headphones
- Silent Sound System™ Transmitter(s)
- Headphone Charging Cable(s)
- Storage Case(s)
- Silent Sound System™ Management System

System Features:

- 12-hour rechargeable battery life
- Built-in rechargeable Lithium-Polymer battery
- Collapsible design for easy storing
- Up to 3 channels of audio w/ LED channel indicator (Blue, Red, Green)
- Professional sound quality (Less than 1% distortion)
- On the ear style, cutting down on most outside noise
- Auxiliary output for complimentary devices such as BASSpak, recording devices, speakers, etc.
- Works up to over 1,500 feet from the transmitter
- Super simple setup! Plug & Play

Set Up

Transmitters

1. Connect the power supply here. We recommend plugging into a surge protector to protect your equipment.

2. RCA Input. Connect to audio device with provided cable.

3. Power switch turns the transmitter on, as well as the option to toggle transmission strength. We recommend using the high setting for outside venues and inside events spread throughout multiple rooms.

4. Channel Switch

Channel 1: **Blue**

Channel 2: **Red**

Channel 3: **Green**

Headphones

1. Power switch

When turned on, the headphones will glow red, blue, or green

2. Channel switch

3. Volume dial

4. Location for auxiliary output

Event Ideas

Silent Sound System™ isn't limited to Silent Discos! Here are some ideas for how to get the most out of your new system.

Corporate Gatherings/Conventions

Expecting a big crowd? Make sure everyone can hear.

Weddings

Set a color for the bride's family and a color for the groom's!

DJ Battles

Take your silent disco to the next level by having a competition. DJ with the most headphones tuned to her channel wins!

Yoga/Fitness/Meditation

Let your clients decide what music or work out program they want.

Art Installations/Museums

Bring quality audio to your installation without noise concerns.

Movie Screenings

The surround sound experience without the cost.

Bilingual Events

Help everyone understand!

Silent Comedy

They can't laugh if they can't hear you, give the audience control over the volume.

Educational Events

Engage your students and get them thinking about material in a new way.

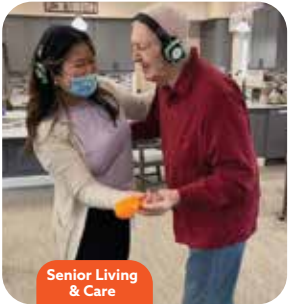

Guided Tours

Make sure you're heard even in a crowd!

Bar Mitzvahs

One channel for kids and another for adults.

Silent Experiences

Satisfied Customers

Leah

"Purchasing a set of silent disco headsets has been (quite literally) my favorite purchase ever. Endless fun for my friends and I- birthdays, holidays, and any events are made so simple and easy without sacrificing fun!"

Kat Harmon Sol Harmony

"We absolutely love silent sound system headphones!!! We do tons of events where we immerse our guests in sound journeys, dance journeys and more! We take them on the road and do pop up silent disco parties where any passer by can jump in on the fun! We love using them to spread joy and connect in community."

Jeff & Andy Crocker Mister and Mischief

"We used the Silent Sound System for our "experiential documentary" 40 Watts from Nowhere-- the true story of legendary pirate radio station KBLT. We took this show to secret locations in San Diego, Los Angeles, and even Denver, CO. Silent Sound System was solid and reliable the whole time."

Why Silent Sound System™?

Your Noise Ordinance Solution

Your new Silent Sound System™ can ward off even the fussiest of neighbors. There will be no more unnecessary visits from the police, so you can keep the party going all night long!

Power of Choice

A 3-channel system gives listeners the power of choice and entertainers an opportunity to provide different listening options. Now, you can play something for everyone!

Stop Yelling Over The Music

Catch up with old friends, flirt to your heart's desire, or just take a break. With Silent Sound System™ it's as easy as taking off your headphones.

Sensory-Friendly and Inclusive!

Individuals who are hard of hearing, have autism, PTSD, and other sensory sensitivities can control the settings of their headsets to meet various needs.

BASSpak Compatible

BASSpak will let you listen to your headphones and FEEL the music without restricting your ability to move or dance! Silent Sound System headphones are specially equipped with an output to connect with BASSpak!

Charging

- Headphones take approximately 3 hours to fully charge
- Headphones turn from red to green when fully charged
- Headphones operate for up to 12 hours when fully charged

Frequently Asked Questions

1. How many channels does Silent Sound System™ have?

Our standard system can handle three unique audio channels that correspond to red, blue, and green lighted headphones. If you need more channels, ask about our 10-channel system.

2. Can I connect to my mp3 player/smartphone/laptop?

Absolutely! Our systems are plug and play. Simply use the provided RCA cables to connect anything from a smartphone to a P.A. System.

3. How long does the battery last?

A fully charged headphone has 10-12 hours of battery life.

4. How long does it take for the headphones to fully charge?

Silent Sound System headphones take 2-3 hours to reach their full charge.

5. Can I add more headphones or audio receivers to my system?

Yes! They can be purchased by phone, online, and through our distribution partners.

6. Can I Customize my Silent Sound System products?

Yes. Send us an email or give us a call as soon as you can! Our graphic design department will come up with an option if we are able.
